EVENTS

URBAN FLORA - I am launching a new gallery of photographs of flowers I've taken while walking around New York. I have replaced the backgrounds of these flowers, leaves, or branches with a black so the eye can see the exquisite details of these beauties that are otherwise lost in the visual noise. .

I LOVE YOU Since September, the I LOVE YOU billboard designed by Sally Lelong for La Plaza Cultural has been on view at the southwest corner of Avenue C and 9th Street, NYC. This billboard salutes the Deaf community and invites onlookers to imagine the I, L, and Y sign language letters and the "I Love You" hand sign as new constellations of stars that twinkle from dusk to midnight.
